

Yally Dialog Doll

www.dialogdoll.com

The Dialog Doll helps to improve baby & child's communication skills, the ability to interact with people and sensitivity through voice conversations. Also available in English, it is helpful to early foreign language education.

Benefits

1. Everyday Conversation : suitable for preschooler to develop their language
2. Foreign Language Conversation :
Available to commonly used Korean, English, Chinese and Japanese expressions
3. Situational Conversation : Try shaking it or turning it around and see what it says
4. Song Conversation : Find and show you songs that you want on YouTube
5. Emotional Conversation :
While sharing a conversation you can see various facial expressions

How to use

1. Android OS 4.0 or later is recommended.
2. Please insert your smartphone pre-installed with Dialog App into the doll face.
3. Please insert the Voice Dialog Device into the doll's tummy and connect the earphone jack of your smartphone.
